SPECIFIC EVALUATION CRITERIA

2016-2022 Group III - Music Level I Band (Beginning)

The Beginning Band objectives are written for the student who has begun the study of a band instrument. Typically, the student is at the elementary level, but due to delayed entry into band or differences in scheduling, he/she could also be at the middle or high school level. The beginning band student learns basic playing skills, performance criteria and begins exploring relationships between music and other disciplines.

WV Standard 1: Performing

Singing, playing, and moving are fundamental processes of musical expression. Basic performing skills in singing and in playing a variety of pitched and non-pitched instruments are developed in the K-8 general music area of study. Students who participate in the concentrated study of choral and/or instrumental music area of study will develop advanced musical skills and technical accuracy through a varied repertoire of musical literature. Piano and fold music areas of study may also be taught at the high school level.

WV Standard 2: Exploring

Skills in the analysis of music enables students to listen to a wide variety of music with discernment and enjoyment. Broad experiences with a variety of music assist students in evaluating musical works and performances. The ability to read and notate music is the foundation for independent study and performance. Exploring musical notation is a key to lifelong learning and participation in music. Music reading experiences begin in kindergarten and are stressed through all levels of study.

WV Standard 3: Creating

Creating music by improvisation and composition is encouraged and developed through experiences in music. Students at the secondary level may further develop improvisation and composition skills through participation in small ensembles and classes in music theory or composition.

WV Standard 4: Relating

Students will be encouraged to explore the commonalities and relationship between music and other disciplines. As it becomes easier to maneuver around our world, students must become more diverse in their knowledge of history, other cultures and the importance of music as it pertains to these. In an increasingly independent world, students must develop awareness of diversity in cultures and the uniqueness of music to cultures.

For student mastery of content standards and objectives, the instructional materials will provide students with the opportunity to
